## REPORT ON WORK OF Y SECRETARY

### Fifteen Talks to 2051 Persons in a Month

### STATE CONVENTION

**Judge J K. M. Norton, W. S. Risdon, and Sec. K. E. Wallace Delegates, U. S. Lambert and G. L. Boothe Alt.**

The Young Men's Christian Association board of directors, meeting at the Chamber of Commerce last night, was one of the most successful and important meetings ever held by the board.

Secretary Wallace's report for the month of May was a distinct surprise to the members present and many marveled that so much could be done in the short period of three weeks. The secretary is rapidly gettingfi acquainted with the field and is in constant demand, either for an address or to render advice on some community service matter.

The report showed that the secretary had spoken as many as five times on one or two Sundays to as many Sunday Schools or young people's societies, lining up volunteers to assist in carrying on the extensive program planned among the Sunday School boys and young people of the churches.

Among the most important items noticed in the report was the industrial work already being carried on. Mr. Wallace is giving health talks to the men of the Naval Torpedo Plant each Wednesday at 12:15; to the men of the Water Works plant at the Scuthern shops each Thursday at 12:10, and at the round house of the same shops each Friday at 12:05.

The talks are practical hygiene discussions and are the result of over 20 years experience as a physical director and the men of the plants are already enthusiastic over them. It is the intention to continue the talks for several weeks.

The secretary's summing up is as follows: "76 calls made; 8 visits to the public schools; 4 visits to churches; 3 health talks to 190 men; 1 committee meeting; 2 out of town meetings attended; officiated at 2 athletic meets; 2 ex-service men lined up under the educational fund of the War Work Council; 1 directors' meeting; 1 men's club meeting; 1 young people's social; engaged in extension work teaching 600 young men and women; gave 15 talks to 2051 people. Special commendation is due the "Gazette" which is most sympathetic in all of our work, both in spirit and space."

The first Tuesday evening of each month was decided on by the board as a regular board meeting night, while each other Tuesday night was designated as "committee" night and special committee meetings will be called on these evenings.

It was decided to call the woman's auxiliary together this week and get it organized at once as much important work now awaits the action of this valuable adjunct to the men's work of the association.

The meeting closed by electing as delegates to the state convention at Richmond the 15th and 16th of the month the following: Delegates, Judge J. K. M. Norton, W. S. Risdon; and Secretary K. E. Wallace; Alternates, U. S. Lambert and Gardner L. Boothe. Other members expressed an intention of attending the convention, if at all possible, and it looks as if Alexandria would be well represented.

### NIXON COMMENDS BUDGET

**Urges System Inaugurated by Governer Davis as Model For Nation**

Virginia's budget system of appropriating public funds, inaugurated by Governor Westmoreland Davis, was urged in Richmond last night by Lewis Nixon, chairman of the Public Service Commission of New York, and an outstanding figure in the American business and economic world, as a model for the nation.

One of the greatest needs of the country, he declared in an address before an audience of representative business men, gathered in the auditorium of the Jefferson Hotel under the auspices of the Kiwanis Club, is to swing back to a purely business basis, in the administration of national affairs, from the high level of extravagance and reckless spending that come with the war and has remained as an aftermath of war conditions.

### BETTING IN WALL STREET FAVORS JOHNSON, 8 TO 5

New York, June 2.—Wall Street bettors are rather wary ths year in making wagers on Presidential possibilities. There are too many "dark horses" for the speculators to bet freely just, yet.

A member of the brokerage firm of J. W. Ball and Co., said that little money was being placed in the Street although there is much talk.

The only actual wagers reported was one of $500 at 8 to 5 on Governor Edwards, and one of $500 at 2 to 1 on William G. McAdoo.

Hiram Johnson is a favorite for the Republican nomination at 8 to 5, while Edwards maintains the 'favorite' position for those willing to bet on the Democratic possibility.

## WANTS BONE DRY G. O. P.

**Wm. Jennings Bryan in Address in Washington Promises Fight in Chicago**

William J. Bryan will do his utmost to influence delegates to the Nation- al Republican convention to nominate a "dry" candidate and place a "dry" plank in their platform. He declared his intentions before a meeting of Washington Democrats at the Hamlin Methodist Episcopal Church last night he said he expected to be in Chica- go throughout the convention period next week.

A bitter fight over the adoption of a "dry" platform and nomination of a "dry" candidate at the National Dem- ocratic convention was prophesied by Bryan. "People of the country fail to appreciate the danger which now faces prohibition," he said. "We are going to have to fight and fight hard at San Francisco to obtain a 'dry' plank or keep the question from being entirely overlooked." Bryan said he felt sure thirty-six of the fifty-two members of the Democratic resolu- tions committee, of which he is a mem- ber, were prohibitionists and would fight for a "dry" plank in the plat- form.

Prohibition of all strikes and lock- outs during a "temporary period of investigation" by a national board was proposed to the Senate Labor Committee yesterday by Bryan to bring industrial peace.

The board should be established permanently by law, Bryan urged, and include one representative each for employer, employees and the pub- lic. Two more members would be ad- ded temporarily during consideration of each individual case.

Bryan read to the committee from an article written by Frank P. Walsh, former joint chairman of the National War Labor Board. Walsh proposed a "constitution of industrial principles" to be promulgated by the government as a basis for relations between capi- tal and labor. The plan outlined a series of principles to govern in- dustrial disputes which the War Labor Board tried out.

## DROWNS SELF IN BARREL

**Chester Man Ends Life in Sister's Back Yard; Despondent Over Illness**

Chester, Pa., June 2.—Ill health is believed to have driven Joseph Bostick thirty years old, to drown himself in a whisky barrel half-filled with water. Bostick's body was discovered early yesterday morning by several children in the rear yard of his sister's home. All that was visible of the man were his legs from his knees down, sticking out of the barrel. Mrs. John Merkel, the sister, says while her brother may have fallen into the barrel accidentally she does not see how he could have met his death that way, and is satis- fied he committed suicide.

Bostick had been in ill health for several days. At the outbreak of the war with Germany Bostick tried to enlist in the American Army but was turned down at a Philadelphia recruit- ing station. He then tried to enlist at one of the stations in this city, but was turned down again on account of his sickly condition.

**What's become of the prejudice against automobiles because frightened the horses**

Now cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend *nearly a billion dollars* on tires alone.

Tires are one of the *biggest items* on the car owner's bills.

II

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in *Service*.

Service is what the car owners of this community are looking for nowadays.

And especially the *small car* owners, who put service *first* in figuring their motoring expenditures.

III

Just because a man has a moderate-price car is no reason why he should get any *less service* out of his tires.

We believe that the man with the small car is entitled to *just as good* tire service as the man with the big car—and both are entitled to the *best tire service* they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—*large* and *small*—are coming to us every day for U. S. Tires.

IV

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

*Select your tires according to the roads they have to travel:*

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.

## WOMEN DEFY CONGRESS

**Outbreaks in Senate And House Are Quelled Only When Hecklers Are Ejected**

Washington, June 2.—Both the Senate and House were thrown into an uproar yesterday by an outbreak of women sympathizers with Irish freedom.

There were evidently two parties to the demonstration, which started first in the Senate during delivery of a speech by Senator Brandegee, Republican, Connecticut, opposing acceptance of a mandate over Armenia. Later a woman eluded guards at the House chamber door and, with friends in the gallery, shouted a challenge to members to deny their appeal in behalf of Ireland.

Answering a demand from the floor that they be thrown out and locked up, the women defied the entire House to attempt it, and as guards started after them they raced around the gallery, creating great disorder, until they finally were subdued and ejected.

Alhough the offenders were escorted to the Capitol guard room, no charges were lodged against them, and they were permitted to go their way.

## TURNS DOWN MANDATE FOR ARMENIA

**Democrats Join With Republicans in Rejecting Mandate for Armenia**

Washington, June 2.—President Wilson's plea for an American mandate over Armenia was rejected in the Senate yesterday by a vote of more than two to one.

Thirteen Democrats cast their votes with the united Republican membership on the final roll call, and the resolution "respectfully declining" to grant Constitutional authority for the mandate was adopted 52 to 23, in the form drafted by the Republican leaders.

The resolution will be sent to the House today, and the leaders those plan to adopt it without change on Thursday. They say they hope for as decisive a majority as the measure was given in the Senate.

## TO ASSIST IN WORLD PEACE

**Encyclical Issued by Pope Seeks Friendly Relations Among All**

Rome, June 2.—Catholic press throughout teh world was urged to devote every effort toward establishing and maintaining peace in the future in an encyclical issued by the pope today and published in the Osservatore Romano. The papal message dealt in great part with the brotherhood of all the peoples of the world, and declared the church should be directly interested in the immediate re-establishment of friendly relations among all belligerents of the recent war.

It is planned, teh pope declared, that the vatican shall aid in this work by letting down many of the barriers which have been set up against visits to the vatican by dispensing with much of the ceremony which has attended such visits by the rulers or heads of states visiting Rome. It was even said in the declaration that the necessity of visiting Catholic rulers paying homage to the pope would be dispensed with in the future.

It is planned, the pope declared, This encyclical explained that this will not mean a renunciation of the holy see's claim on Rome, but the departure can be interpreted as another step toward the ultimate conciliation of the church and the state.

## RESIST GREEK OCCUPATION

**Concentration of Turkish Troops is Reported Along Railroad Line For Thirty Miles**

Constantinople, June 2.—Three divisions of Greek troops are occupying the Dedegatch-Adrianople line, and another division is expected to land at Rodosto shortly. Dispatches from Adrianople report that there is much uneasiness there, where Turks and Bulgarians apparently are preparing to resist the entry of the Greeks.

French administration in Turkish Thrace has been well received by all classes of population, including the Greeks, who are said to be begging the French not to leave.

The Turkish troops are concentrated chiefly in the vicinity of Lule-Burgas, on the railroad between Constantinople and Adrianople, and westward along the railway lines for a distance of 80 miles.

## CHARGE PROFITEERING

**Warrants Declare 13-Cent Sugar Was Sold for 28 Cents in Tampa and South Florida**

Tampa, Fla., June 2.—Charging profiteering in sugar, it being alleged they sold 13 and 14-cent sugar for 28 cents, which was responsible for 33-cent sugar in Tampa and South Florida recently, Wiley B. Coarsey, prominent Tampa business man; C. J. Early, Paul T. Davis and A. H. McRae, prominent Orlando men, have been ordered arrested on warrants sworn out before United States Commissioner H. L. Crane.

**The Chandler Gives You the Service Ycu Demand**

THOUGHTFUL men, in selecting an automobile, find in the history of the Chandler Six a source of real confidence.

The Chandler motor of today is the development of the Chandler motor of seven years ago, embracing refinements and improvements which have been the natural development of these years of service in the hands of thousands of owners, and the constant application of the engineering skill and the sincerity of its builders.

Motors of one type and another have been heralded and retired within these years. But the Chandler motor, its true superiority proven in service on every roadway in America and in many nations abroad, has lived and gone forward into a place of distinction.

Men who have owned and driven many cars, men from coast to coast, will tell you the Chandler is the leader of all sixes. Over the long mountain roads or on the trails of the desert or in crowded city traffic, anywhere, the Chandler will give you the service you demand. Its power, its flexibility, and its sturdy endurance are not surpassed.

## NEW TRAFFIC LAW IN FORCE.

The new traffic ordinance passed by both branches of the City Council is published elsewhere in the Gazette.

In this day of automobiles, auto trucks, motorcycles, etc., the new law should be read carefully by all, not only by parties owning such vehicles, but by the public at large, as it shows the duty incumbent upon pedestrians, operators of baby carriages, rollerskates, riders of bicycles, etc.

The penalty for violation of any section of the ordinance ranges from five to fifty dollars upon parties for the first offense, which is increased where it is shown the accused have been guilty of previous violations of the law.

The City Council has embraced much in the new law which is designed to minimize accidents and to safeguard pedestrians.

Probably fifty persons have been cited to appear in the Police Court during the past few weeks for neglecting to place lights on cars left standing in the streets after dark. The fines imposed have been nominal to order to maintain the dignity of the law, but in future the assessment must be made according to the ordinance, the minimum fine being five dollars.

It behooves all to read the law carefully, as it is of interest to the public generally.

A law making it a misdemeanor to ride a bicycle on a pavement, passed by the City Council 25 years ago, is more honored in its breach than observance. The present law again forbids this pastime, and fifty dollars can be assesed against parties who defy it.

## HOUSE AND BONUS BILL

As the Baltimore Sun says, "in less time than a Congressman often devotes to picking out a straw hat, the House of Representatives Saturday drew a draft for $1,750,000,000 on the taxpayers of the United States as a bonus to ex-soldiers for their service. No prolonged debate or consideration was permitted. The members of both parties tumbled over each other pell mell in the eager effort to give away the money of the people. But 92 votes were recorded against the bill, 40 Republicans and 52 Democrats.

"The Bonus movement has been a more or less national one on the part of the ex-service men. We can well feel a certain sympathy with their point of view, however mistaken it may be. But for the majority in the House of Representatives who played politics on this measure ex-soldiers themselves can feel nothing but contempt. It was one of the most disreputable exhibitions of political cowardice and dishonesty ever witnessed even in the lower branch of Congress. More than this, it was, in effect, a gross insult to the supposed beneficiaries of the bill, because the motive was clearly not one of generosity, but of fear, or of sordid expediency.

"The Bonus bill and the manner in which it was railroaded through the House of Representatives creates a personal issue for every man who supported it when he faces his constituents this fall. He will have to explain to the taxpayers and consumers of his district when he voted to increase the high cost of living if they approve of it, all right. If they do not, it may be all wrong politically for those who have put their hands in the people's pockets."

## LABOR AND POLITICS

Labor circles in Richmond are still discussing the recent action of the Central Trades and Labor Council of that city in directing that the endorsement heretofore given to Howard T. Colvin for the congressional nomination be withdrawn, the reason being that the organization intends to ask that its members shall refrain from participation in Democratic primaries. The ultra labor men incline to the view that the time is at hand for the men belonging to the organizations to cut loose from political organizations and to vote according to the wishes of the leaders.

Just how far the labor leaders will get with this remains to be seen says the Richmond Journal, "for it is known that the coolest element of the workingmen take the position that their views on politics are not to be directed by any man or set of men, and they are not disposed to follow the mandate of the council. In fact, several men who have been for years prominent in the affairs of the labor organizations take the view that the orders may be issued but there is no way on earth by which they can be enforced. The men referred to say that they do not propose to have the council dictate to them when, how and for whom they shall vote and that they intend to continue to vote in the primary.

"It will be recalled that the labor unions last year insisted on having their men pay their poll taxes, and the members insist that this is all right and they do not object to this. They take the view, too, that to insist on the labor men voting as they may be directed will mean that issues and policies will be revived that will in the end prove inimical to the best interests of the city and state. There is no lack of evidence that the labor men are considerably agitated in this matter, and the chances are that they will let things drift along and that they will vote to suit themselves when the date for the primary comes around."

## SUES SCIENTIST WIFE

**Seeks Habeas Corpus Writ to Compel Appearance in Court of Boy and Girl**

New York, June 2.—Francis E. Stewart swore out a writ of habeas corpus in the Supreme court yesterday, directing his wife, Mrs. Edith M. Stewart, to produce their two children in court. The children are Betty Jo, five, and Francis J., nine. The girl, said Mr. Stewart, is ill, and because his wife has lately become a Christian Scientist he fears the child will not have proper medical attention.

Mr. Stewart alleged that his wife abandoned him and their children on April 24, while they were living in Washington. He placed the boy and girl with his mother, and declares that Mrs. Stewart took possession of them and brought them to New York.

The American Red Cross has undertaken to teach Albanian children how to play.

A novel idea in Americanization methods, sponsored by some of the leading figures in the American music world, is that of teaching aliens the love of their adopted country by means of proper music. At Greenwich house 44 Barrow street, New York city, no less than fifteen different nationalities sing in a "melting pot," where the good music of the Land of the Free brings clean thoughts and undermines the "red" and radical propaganda that the enemies of organized government try to force into the minds of our coming generation.

## AID SERVICE GOES TO AID OF SALVATION LASSIES

Salvation Army lassies all over the United States are busy just now getting ready for the nation-wide Home Service appeal for $10,000,000 the Army is to make from May 10 to 20. Here are some of the popular blue-bonneted girls leading an airplane with printed matter so urgently needed that the usual method of shipment would have been too slow.

The supplies which were in New York City had to be in Albany the same afternoon. The United States Air Service stepped into the breach and got them there from the flying field on Long Island in a little over two hours. The obliging aviator is Sergeant J. Cole. The three lassies are all "war veterans."

## SALVATION LASSIES WIN CHILDREN TO A NEW GOSPEL

Crippled limbs bear mute witness to infantile paralysis ravages among New Jersey children to whom the Salvation Army is giving the "milk treatment."

Salvationist preaching the "gospel of clean milk" in Covington, Ky.

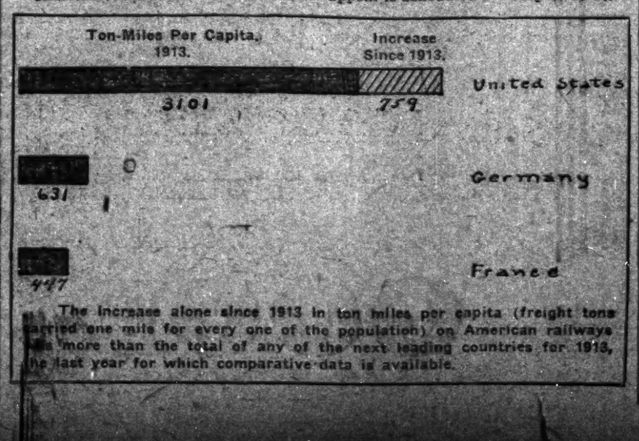
A new gospel is being preached by Salvation Lassies in at least two cities in the United States.

It is a "gospel of clean milk"—and lots of it. School children in Union Hill, N. J., which is just across the Hudson River from New York, and Covington, Ky., are already benefiting from the modern gospel.

Union Hill Salvationists were the first to start the milk crusade, and there 60 quarts of the healthful fluid are dispensed free each day. In this town the ravages of infantile paralysis about two years ago were especially severe, as is shown by the number of crippled poor children who benefit from the Army's treatment.

In Covington the crusade is educational as well as charitable in nature, and the lassies preach the clean milk gospel with all their usual fervor.

Charitable and relief work for America's destitute and sick children has long constituted a big part of the Salvation Army's activities. Through milk stations, fresh air farms, seashore homes, nurseries, orphanages, hospitals and with food, clothing, medicines and the like the Salvationists aided almost half a million children in the United States last year. This child-saving work is one of the organization's many non-self-supporting activities which is financed by the once-a-year Home Service Appeal. This year's appeal is scheduled for May 10 to 20.



The increase alone since 1913 in ton miles per capita (freight tons carried one mile for every one of the population) on American railways was more than the total of any of the next leading countries for 1913, the last year for which comparative data is available.

A NERVOUS WRECK

**From Three Years' Suffering, Says Cardui Made Her Well.**

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardi. I took three bottles in all, and it surely cured me of those awful headaches. That aas been three years ago, and I know the cure is permanent, fr I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benfit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

## Little Hope of Relief For Victims of Catarrh

**Unless Old-Time, Obsolete Treatment Is Discarded.**

Doubtless during the mild summer months you have enjoyed some relief from the disease, because there is always less inflammation of the membranes during the summer, but do not make the mistake of thinking that your Catarrh is gone, for the very first raw, damp, wintry day, the delicate linings of the membranes will begin to again become irritated and sore, the air passages will begin to clog up, and soon you will find that your old enemy is still with you, with a fiendish intention of making the winter as full of discomfort as ever.

What are you going to do about it? If you have had the disease for any length of time, the chances are that you have used enough local remedies to convince you that there is no cure for you in this method of treatment. Are you going to drag through another winter hawking and spitting and spraying constantly in an effort to unclog the stopped up air passages so that you can get your breath for awhile, knowing that these accumulations will immediately reappear—or are you going to discard this makeshift treatment, and use a little intelligence in an effort to get rid of this disease that is such an annoyance and a constant hadicap?

You must accept the teachings of science, which shows that to get rid of any disease, you must treat it at its source, you must direct your efforts toward removing its cause, instead of being satisfied with slight temporary relief from its symptoms. You must rout out from your blood the millions of tiny germs which cause Catarrh, so that there can be no more inflammation of the nose and throat, and choked up nasal passages that make breathing difficult and painful.

S. S. S., the fine old blood remedy, has given splendid results in the treatment of Catarrh, and you will be delighted with its effect on your case. It so purifies and cleanses the blood, that disease germs are eradicated, hence when the germs of your Catarrh are eliminated from the blood, you are on the right road to a permanent riddance from the disease. Go to your drug store, and get a bottle of S. S. S. to day and begin the real rational treatment that will give real results.

If you will write our medical department, we will take pleasure in giving instructions regarding the treatment of your own particular case. Address Chief Medical Adviser, 15 Swift Laboratory, Atlanta, Ga.

### RIOTS IN GERMANY

**Communists Attack Nationals, Breaking Up Democratic Meeting After Serious Fight**

London, June 2.—Riotous disorders are taking place in Germany as a result of the political campaign in that country, according to a Berlin dispatch to the Exchange Telegraph Co. A meeting of the Democratic party in Berlin Sunday ended in a serious fight, it is said, Communists attacking Nationals with sticks, beer glasses and chairs, and storming the speaker's platform.

At a meeting held in Mecklenburg Deputy von Graefe, Conservative, suffered a broken arm and rib during a melee, while the secretary of another Conservative meeting was badly mauled and was found unconscious after the gathering had adjourned.

Everywhere in Germany there is great tension, the dispatch declares, and several land owners are said to have fled to Berlin to escape Communist violence.

### ACCEPT WILSON'S OFFER

**Announcement Made After Labor Secretary Meets Operators and Union Representatives**

Washington, June 2.—Anthracite miners and operators formally announced yesterday acceptance of President Wilson's offer for the appointment of a commission to decide their wage controversy.

The announcement, which was made after the first conference of miners and operators with Secretary of Labor Wilson since the Wilkesbarre meeting of the miners, expressed approval of President Wilson's plan. Secretary Wilson will notify the President at once of the action of the joint conference and the appointment of an anthracite coal commission is expected to follow in a few days.

In a statement issued after yesterday's conference Secretary Wilson announced that the miners and operators had agreed that the award of the commission and subsequent agreements modifying it, as well as rulings and decisions of the board of conciliation, would be ratified and written into an agreement between the operators and miners.

### A WOMAN'S BACK

**The Advice of This Alexandria Woman is of Certain Value.**

Many a woman's back has many aches and pains.

Oftimes 'tis the kidneys' fault.

That's why Doan's Kidney Pills are so effective.

Many Alexandria women know this.

Read what one has to say about it.

Mrs. F. M. Entwisle, 1007 Gibbon Street, Alexandria, says: "The pains in my back were something awful and no matter how I turned I couldn't get rid of them. There was a sore and lame feeling and a heavy bearing-down ache in my back all the time. My head felt as though somebody were pounding it and I became very nervous. I had dizzy spells, too. The way my kidneys acted bothered me a lot and caused me no little pain. The first box of Doans Kidney Pills gave me relief and by the time I had finished the second one all my kidney trouble had left me; I was entirely cured."

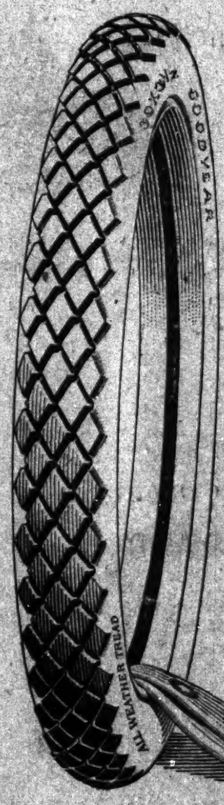
## Why a Majority of the Smaller Cars Come on Goodyear Tires



Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread $23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in waterproof bag* $4.50

## TO REFUND TAX

Washington, June 2.—Provisions of the war revenue act requiring the President and all Federal judges to pay an income tax on their salaries were declared unconstitutional yesterday by the Supreme Court, in a seven-to-two decision.

Under the act, the President paid on his salary of $75,000 a year approximately $16,000 in taxes. Revenues already collected under the invalid provisons will, under the court's decision, be refunded by the Treasury.

The Supreme Court's decision was on appeals by Federal District Judge Walter Evans, of Louisville, Ky., from lower court decrees dismissing a suit brought by him to recover taxes involuntarily. He contended that the Federal Constitution prohibited judges "salaries being diminished during continuance in office."

Justice Van De Vanter, who rendered the majority opinion, held that the section of the revenue act violated constitutional provisions prohibiting the diminution of such salaries. Such a tax, he argued, could be gradually increased until the entire salary was taken. The majority opinion held, however, that a Federal judge was not exempt from tax on his private income or, on his property.

Justice Holmes rendered a dissenting opinion, in which Justice Brandeis concurred. He declared that no reason existed why Federal judges should be exempted from the income tax.

The majority opinion required about an hour for delivery and was one of the longest rendered by the court in recent years.

## GASOLINE ADVANCES

**Federal Trade Commission Says Conditions in Oil Trade are Improved**

Washington, June 2.—Recent advances in the price of gasoline and other petroleum products were ascribed more to "varying conditions of supply and demand in the light of emphasized and pessimistic statements as to future supply than to a combination in restraint of trade," by the Federal Trade Commission last night in a report to Congress.

The commission said it was unable to say whether the prices of the refiner products were "disproportionate" to advances in crude oil prices, and likewise impossible to report on the companies' profits for the current year, though in 1919 "the profits of many of the large oil companies, whether producers, refiners or distributers of oil, were large."

Strong demand is the primary cause of the higher prices, the commissioner said, adding that conditions in the oil trade now appear to be greatly improved with respect to production and imports.

and Clerk of School Board, J. Gilbert Cox, it was taken by C. M. Ray, principal of the High School, and R. S. Hayden, a teacher in that school. The task has been a big one and required about six weeks.

The reason for taking the census on the part of the school authorities is that the state apportionment of funds for public schools throughout the state is based on the school population.

At the present time the total number of children attending the public schools in this city, white and colored, is 2,850.

**What Wes Did.**

Wes Whittle, a teamster down in Lowell, Ark., was so patriotic during the fall of 1918, before the Hun was finally vanquished, that he put a mortgage on his team and wagon for $50 and bought War Savings Stamps in his desire to do his duty by the government. Some thought Wes was doing more than his financial strength warranted. But he just went down into the woods, cut up fuel and sold it and the mortgage was soon lifted. Now Wes is buying more stamps, because he realizes their value and finds he can save.

**Crew Demanded Stamps.**

Clean up day on the battleship New Jersey means something more than hard work to the gobs on board that craft. It means a decided addition to the ship's fund that is drawing interest in the form of War Savings Stamps. While the war ship was anchored in Boston harbor recently, the crew gathered up all the obsolete ship's fittings, cast off jumpers and other clothing, books and papers and sought out a junk dealer. The dealer was willing to pay cash for the junk offering but the crew demanded payment in War Savings Stamps and got it. All condemned material on board is being carefully stored away in preparation for another clean up.

## WOODMEN HOLD CLASS INITIATION

(Continued from Page One)

much applause and exceptional favorable comment.

Principal feature of the occasion was the adoption of a large class of candidates and the ritualistic ceremonies were beautifully exemplified by the visiting team.

Many prominent speakers from Virginia and the District of Columbia were in attendance, applause was given their speeches. In a short but effectual address, District Deputy J. A. Doubles expressed the gratitude of the Old Dominion to Washington Camp for their visit and encouragement and paid them a high compliment on the masterful manner in which they exemplified the Society's ritual, also for the spirit of good-fellowship in which they had graced the occasion.

State Lecturer W. J. Dixon enlivened things with one of his humorous lectures. The climax in the oratory came in a most forceful and fraternal address by Neighbor Rookes who said that no sexton could bury a Modern Woodmen deep enough to be forgotten by those with whom he was associated with under the high ideals and noble principles of Modern Woodcraft.

A buffet supper and smoker was enjoyed following the closing ceremony. A campaign was inaugurated for 100 new members during the next sixty days and when the meeting adjourned, every member left the Camp Hall eager to interview the "forgotten" friend to tell him of the strong merits of Modern Woodmen companionship.

## SLAYS TWO AND DIES

### Shoots Man Asleep With Wife, Own Daughter, Then Self

Westchester, Pa., June 2.—Infuriated with jealously at the reconciliation of the man she loved with his wife, Mrs. Mary Frances Dunlop Monday night shot and killed J. Leroy Eichelberger at his home in West Grove, 20 miles from here. Eichelberger lay asleep with his wife when the shot was fired.

Mrs. Dunlop then went to her home on a farm on the outskirts of West Grove, shot and killed her 11 year old daughter, Ruth Dunlop, as she lay in bed asleep and then shot herself in the mouth, dying.

At an inquest Mrs. Eichelberger, wife of the slain man, testified that she discovered a year and a half ago that her "husband was intimate with Mrs. Dunlop.'" She said she pleaded with him to stop and he gave his promise.

Several weeks ago, Mrs. Eichelberger testified, she left her husband and went to live with relatives in Maryland. Eichelberger wrote, pleading that she return, she said. They returned to their home in West Grove Monday.

## SHOOTS UP DINING ROOM

### Missourian Wounds Baltimore House Detective and Terrifies Guests

Baltimore, June 2.—Drawing two pistols, a man giving the name of Clarence Murphy, of Kansas City, Mo., terrified guests at the Southern Hotel yesterday when he fired at random in the dining room and lobby. A house detective was slightly wounded, but no one else was hit, although several bullets narrowly missed guests.

It required four policemen to overpower Murphy and he was so badly beaten in the struggle that it was necessary to take him to the hospital.

Murphy was at a table in the dining room and took exceptions to the proximity of a waiter. This appeared to be the only provocation for his outbreak. Later he said he began shooting because "there was a devil in the form of a man walking through the room."
